

# VETERAN OWNED. VETERAN OPERATED.

We are fellow Veterans like you.

As Veterans, we founded our company because we saw too many of our seniors and fellow Veterans struggling with the complexity of both Medicare and VA benefits. We knew those who served our country deserved something better, so we built a company on that principle.

- As Veterans, we believe our mission is to help our fellow Veterans.
- As Veterans, we have a bond beyond the transaction of a simple sale.

We have developed strong partnerships with Veteran Service Organizations on many levels to include local, regional, state and national platforms. It is our mission to educate and present to our fellow Veterans information about their VA and Medicare benefits.

Our Mission is to assist our fellow Veterans in maximizing their health while minimizing their costs through the fusion of their earned VA Healthcare benefits and selection of a Medicare plan.

Proud partners of the Vietnam War Veterans  
50th Commemoration Association.

## TESTIMONIALS FROM VETERANS.

“Advocate Health Advisors, thank you for all your hard work in getting the Veteran benefits, getting me a Medicare plan, and filing the VA claim for Charles, who died from prostate cancer because of Agent Orange. I would not know what direction to go without your help. Thank you for also honoring him with his 50th Pin, he was so proud of his service in the Army”
